

Certified Professional for Software Architecture® (CPSA)

The international Software Architecture Qualification Board ([iSAQB](#)) defines curricula on several levels for software architects.

The goal of this module is to equip architects and developers with solid methodical foundations to effectively and efficiently create and maintain adequate software architecture documentation.

The terminology used in the iSAQB curricula can be found as a (freely available) ebook, published on [Leanpub](#).

Development versions

The ADOC Curriculum is currently maintained and published in German (DE) only, an EN translation is under way.

Maintainers and volunteer reviewers collaborate on GitHub to improve this curriculum.
